NO. 37.

## Must Attend School.

Do you know that if you have a child between the ages of seven and sixteen that you are obliged, under the law, to send it to school? Section 267a of the Kentucky Statutes provides that parents or guardians who have children in their custody or control must send them to school regularly all the time during the whole school year. Children may be sent to a public, private, or parochial school, for a full term equal in length to the full term of the public school in the district in which the child resides. "Any parent, guardian or any other person having the custody, control or supervision of any child embraced within the provision of this act, who shall fail to comply with the provisions of this act, shall be deemed guilty of misdemeanor, and upon conviction thereof, shall be fined in any sum not exceeding one hundred dollars, or by imprisonment in the county jail for a period not exceeding fifty days. Or both so fined and imprisoned, in the discretion of the court.—Ex.

## To Open Campaign.

At the Democratic meeting at Lexington A. F. Byrd, the Congressional nominee from this district, announced that he would formally open his campaign at Camptou, Wolfe county, on Monday, September 19, and that he would make a number of speeches in every county in the district. He said he had perfected a splendid working organization in the various counties in the district and that a district committee shortly would be appointed to work in conjunction with the State committee. Mr. Byrd expressed the belief that the Democrats would win by a handsome majority this fall in this district.—Winchester Democrat.

## Save All the Feed.

It behooves our farmers to save every article in the shape of feed. Pastures will soon be short, when frost comes the best of our pasture is killed, that is our Japanese clover. There is an abundance of this clover and broomsedge growing all over the county. These two when cut about this time, or a little earlier make excellent hay for both horses and cattle. It is much easier to cut and save this feed now than to have to buy other feed later, and it is better to raise less corn each year and save more of this feed. Thousands of dollars worth of feed each year go to waste in this county while our farmers further impoverish their poor soil growing corn to winter their stock and then in the spring the majority of them have far too poor animals for their own credit.

We should all awake to the importance of saving. If we can make a living without saving, we should make some money by saving. And if we don't care to lay up for a rainy day, we certainly can make life easier by being more economical at the proper time.

## A Prompt Subscriber.

Mr. W. G. Blanton who located at Mecca, Ind. a few years ago, and who has always been a constant reader of the Times sends us \$1.50 to pay for his paper to July 1st, 1913. He says he cannot do without the Times so pays up in time to keep it going. If two hundred others will follow the example of Mr. Blanton we will enlarge the Times one-fourth bigger and make it otherwise much better. Mr. Blanton says crops in his part of the state were never better than they are this year.

## Maine Democratic.

At the election in Maine Monday the Democrats made an almost clean sweep. Plaisted, the Democratic nominee for Governor won by a plurality of 8,732, according to returns up to date. The Democrats will have thirty-six majority on joint ballot in the Legislature. The Senate will consist of twenty one Democrats and ten Republicans, while the House will have eighty-eight Democrats and sixty-three Republican members. This Legislature will elect a Democrat United States Senator for the first time in sixty-three years.

## All Should Raise Price.

In the recent issue of the Clay City Times Bro. Burgher announces that after October 1 the subscription price of that interesting little paper will be increased from 50c to \$1.00 a year. He says the high price of labor, material and other necessities of life compel him to make the raise in order to meet expenses. All country papers should follow the example as the expense of printing them is nearly double what it was a few years ago and the cost of living has increased in some instances as much as 200 per cent.—Hazel Green Herald.

## In Camp Near Indianapolis.

The Kentucky Militia are in camp at Fort Benjamin Harrison near Indianapolis, Ind. A special train went to Jackson Sunday and brought down the companies from Jackson and Booneville. These companies at Lexington joined other companies from Catlesburg, Paintsville, Grayson and West Liberty.

## Leases Paper.

P. F. Adams has leased the Estill Herald and converted that sheet into a Republican organ. The first issue under his management has appeared. He has improved the paper a great deal and promises to be a continued credit to Estill county. We wish Bro. Adams the success he so richly deserves.

## Good Man for Treasurer.

Mr. H. G. Garrett has been appointed Treasurer of the Kentucky Republican Campaign Committee. Mr. Garrett is a good man in the wrong place, but so long as he is honest in his policy as we know he is we respect his motives.

## Deaths from Celebrations.

Two thousand nine hundred and twenty-three persons were injured in the Fourth of July celebrations this year, of which 131 died. Sixty-seven of these deaths were due to tetanus (lock-jaw) following the injury, while sixty-four deaths were the direct result of the injuries.

A three-year-old mule sold for \$395 and a suckling mule for \$285 at the Baughman sale last week at Stanford.

The Rev. S. M. Carrier has moved from College Hill to Harlan whither he orders the Times.

## Injured in Railroad Wreck.

Twenty-nine members of the First Regiment, Kentucky National Guard, and Lieut. Van Winkle, of the Second, were injured near Indianapolis Monday, when fast express train No. 9 of the Big Four, crashed into the troop train bearing the soldiers to camp at Fort Benjamin Harrison. Maj. Mechling and Lieut. Van Winkle were the most seriously injured. It is believed both will recover. The engineer of the fast train and the fireman of the troop special were instantly killed, and many civilian passengers were injured.

## Childhood Impressions.

The old man may not recall all the experiences, all the struggles and triumphs of his early manhood, but every feature of his childhood home, every little playhouse that he helped his sister to build, is a photograph on his heart's tablets and can never fade away. Perhaps the golden light of eternity will not dim the brightness of that picture. What else the heart may forget, it cannot forget the place of its birth; it cannot forget the little broken cart, the sled and the kite, the sister's fond caress, the brother's generous aid, the father's counsel, the mother's anxious prayers.

## A Good Jailer.

There is one thing of which Irvine can boast, that is that it has one of the best, if not the best kept court house yards in the State. Jailer Elkins is to be congratulated for keeping them in such nice order.—Estill Herald.

Mr. Elkins was a former resident of this city.

G. P. Douglas, of Levee, and his son, Charlie Douglas, of Lexington, Ill., were in the city yesterday. Mr. Douglas from Illinois says crops in his state are fine this year.

The report of the Clay City National Bank appears in this issue which shows this solid old institution to be in its usual healthy condition.

The receipts of the Louisville postoffice for August were \$75,673.20, an increase of 4.55 per cent over the same period of last year.

The Republican Primary comes off in the Eleventh district today. Both Powers and Edwards claim the victory.

The prevailing cool weather reminds us that frost is in the air. It is fine to ripen both corn and tobacco.

Mr. and Mrs. James Douglas, of Northmiddlesboro, were here this week the guests of relatives.

The first day's attendance at the Kentucky State Fair was 21,500, breaking previous records.

Misses Fannie and Eva Reed, of Cynthiaua, are visiting their cousin, Miss Grace Shimfessel.

Attorney Williams, of Louisville, son of J. D. Williams of this city, is visiting his father.

## Coining Slang Words.

The slang words are still being coined. Young men are never known by their own names and it is quite common to say now, if one fall and breaks some ribs, to call them "broken slats."

## Democratic Keynotes of the Campaign.

When a woman purchases \$10 worth of woollen dress goods, \$4.87 represents the value of the goods and \$5.13 the amount of the tariff.

This is because of the Payne-Aldrich ad valorem tariff of 105 per cent. Or in other words, on each \$1 worth of woollen dress goods imported, the Payne-Aldrich law levies a tax of \$1.05. The consumer must pay the \$1 value and the \$1.05 tariff, or \$2.05 for one dollar's worth of goods.

This is but one of a thousand illustrations that could be submitted to show how the tariff affects the cost of living.

Here is another sample illustration for the tariff arithmetic class, which is composed of some 90,000,000 American consumers, all of whom are more or less dissatisfied with the awful increase in prices:

A suit of clothes having an import price of \$10, and which costs an Englishman \$10 when ready to put on, all wool and tailor made, pays at the custom house an ad valorem tariff of 80 per cent or \$8 per suit, making the suit cost the American when it is put on \$18 disregarding transportation and retail profits.

Another comparison: An English woman carpeting a room 18 foot square with ingrain carpet two ply would use 36 yards at a dollar a yard flat, or would pay \$36. An American woman using the same carpet would pay \$23.76 tariff at the custom house, which would make the carpet cost her \$59.76.

The following table shows a number of common articles of consumption, the ad valorem tariff rate under the new Republican tariff law, the real value of the articles and the tariff addition on the basis of \$10 purchases:

Amt. of tariff rate.	Real value.	Tariff
Sugar, 80 per cent.	\$6.	\$3.75
Glassware, 60 "	6.25	3.75
Windowglass, 84 "	5.43	4.57
Soaps, 46 "	6.84	3.16
Machinery, 45 "	6.89	3.11
Tinware, 45 "	6.89	3.11
Metal tools, 45 "	6.89	3.11
Stockings, \$1 a dozen, 88 "	5.31	4.69
Shirts, 60 "	6.25	3.75
Blankets, 107 "	4.83	5.17
Flannels, 40c a yard, 144 "	4.09	5.91

Those who approve of the sentiments of such genuine progressives as Victor Murdock of Kansas will be disappointed if they expect that the Republican party proper has any intention of carrying out such ideas. This is made plain in the Republican text book issued by the Republican congressional committee. The campaign book emphatically does not recognize insurgent Republicans as Republicans, and thereby tacitly serves notice to the public that if the next House is Republican the people need not expect the ideas of progressives carried out. The Republican textbook, however, officially in-

dorses sentiments of the Aldrich-Cannon-Guggenheim type of Republicans as being Simon-pure Republicanism. As the Democratic campaign book accepts the sentiments of many of the genuine progressive Republicans as being truly Democratic, it would seem that the surest way to secure progressive legislation would be by voting the Democratic ticket.

In spite of anything the progressives can do or say, Cannonism and Republicanism are synonymous. The record of the last Congress proves this beyond successful contradiction. Page 3,490 of the Congressional Record shows that on March 19 a resolution was reported providing for unseating Cannon as speaker. Of the entire Republican membership only the following nine voted to unseat Cannon: Murdock of Kansas; Cooper, Cary, Nelson and Lenroot of Wisconsin; Lindburgh and Davis of Minnesota; Poindexter of Washington and Gronna of North Dakota. Thus it is undisputable that Cannonism dominates all but one twenty-fourth of the Republican party. This is the answer we get by dividing 219, the total Republican membership of the House, by 9, the number of Republicans who voted to unseat Cannon.

Even if every one of the genuine progressive Republican congressional candidates is elected, Cannonism will reign in the House of Representatives if that body has a Republican majority. As the regulars will outnumber the progressives in Republican caucus, "Uncle Joe" or some one satisfactory to the Old Guard will be nominated for the speakership. The only sure way to kill Cannonism is to deprive the Republican membership of Congress of the balance of power, and to replace a Republican president with a Democrat.

"The Republican party," declares the Republican textbook, "stands for 'the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit for American industries.'"

It is true the Republicans promised such a revision in the 1908 platform, but it is safe to predict no Republican candidate office will declare that the tariff was ever revised on that basis. All genuine progressive Republicans are on record as stating that the promise was ignored as completely as if it had never been made. Revision of the tariff on the basis indicated would have been a big downward revision, while the Republicans revised it upward by 1.71%.

A \$5,000,000 ship subsidy grab and a central government bank are two good bets in the event of the next House of Representatives retaining its present Republican majority. If the House is Democratic it is an equally good bet that special privilege will be disappointed on both propositions.

Some papers may be justified in complaining about the duplication of articles in local contemporaries, but it is not for them that use plate or patent sheets, for in the use of these they use the same matter that is printed in thousands of papers all over the country.

According to reports which have been made to Mr. Taft Maine is in danger of going Democratic. That news is too good to be true.—Frankfort News.

And it is just about as true as the wild rumors that start about the world coming to an end shortly. Maine is a true Republican state and will remain as such long after the present editor of the News is writing editorials in some other clime.—Estill Herald.

The unanimous nomination of A. Floyd Byrd by the Democrats of the Tenth district will add another to the list of Democrats who will represent Kentucky in the next Congress.—Clay City Times.

You may believe this Bro. Burgher, but there are several thousand voters in this district who will have to be shown.—Estill Herald.

Maine held her election Monday; elected Democratic Governor by 5,000 majority, at least two of the four Congressmen, and the Legislature is most likely Democratic, which means if this State elects a United States Senator this year he will also be a Democrat. Further comment unnecessary. We still believe Byrd will win in Kentucky and just as easily at least as any Democrat has won in the "True Republican State" of Maine.

Beware of Ointments for Catarrh that Contain Mercury, as mercury will surely destroy the sense of sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly on the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney and Co. Testimonial free.

Sold by Druggists. Price, 75c per bottle.

## Died in the Asylum.

Clarence Patton died at Lexington and was brought back here and buried Friday under the auspices of the Knights of Pythias Lodge. ## Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

**It is a safe medicine in any condition of the system. THE ONE REMEDY** which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

**THE ONE REMEDY** so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

# SENATOR PAYNTER

IS A HUSTLER IN PUSHING LEGISLATION FOR THE PEOPLE.

Holds Place on Many Important Committees.

His Decisions on the Kentucky Appellate Bench Supported by the United States Supreme Court.

Frankfort, Ky.—Few United States senators in the middle of a first term have had as much cause to feel satisfied with the standing they have attained as Thomas H. Paynter, of Kentucky. Not only are his committee assignments all that he or his friends could reasonably have desired and expected, but during the three years and little more that Senator Paynter has been in the upper branch of Congress he has made a number of speeches that have been pronounced decidedly creditable.

He has from time to time, when he really had something to say and felt that he could accomplish something for the benefit of his constituents or for the general welfare of the nation, presented his views.

## Helps Shape Legislation.

As will be shown further along in this article, Senator Paynter has accomplished considerable in the way of legislation during his term. He is a member of seven committees, and

T. H. PAYNTER.  
United States Senator from Kentucky.

six of them are rated as important ones. The committees on which he is serving are: Judiciary, Philippines, Privileges and Elections, District of Columbia, Industrial Expositions, Claims and Investigate Trespassers Upon Indian Lands.

It will be seen at a glance that his work on practically all his committees calls for activity, for there are many bills of local, national and international interest to be considered.

He served three terms in the House of Representatives, having become a member of that body during the memorable Fifty-first Congress when Thomas B. Reed, of Maine, was its Speaker. It was by act of that Congress that the direct tax collected by the United States was refunded to the several states. In the previous Congress, which was Democratic so far as the House was concerned, there was a stubborn filibuster against this proposition, led by Representative Jim Burnes, of Missouri; William C. Oates of Alabama, and others.

When the bill was passed in the Fifty-first Congress Mr. Paynter was the only Kentucky Democrat member of the House who worked and voted for it, and as a result of his efforts Kentucky got over \$600,000 in cash, and the whole amount was placed to the credit of the school fund and is now drawing 6 per cent interest.

## Law Made It Sacred.

It was later made sacred by the constitution of the state, and therefore can not be used for any other purpose.

Mr. Paynter served three terms, or six years, in the House, and was for four years a member of the elections committee while the Democrats were in control. This brought him into prominence on the floor in connection with the contests that were decided. In his six years' service there he also took part in the tariff debates on two of those bills that became laws—the McKinley and the Wilson bills.

## Elected Kentucky Judge.

While a member of the House of Representatives Mr. Paynter was elected a Judge of the Kentucky Court of Appeals for a term of eight years, and was re-elected for another term, serving altogether twelve years on that bench, when he was given his present term in the United States Sen-

ate by the voters of the state.

During his first term on the bench the greatest question, perhaps, which came up was decided by the court of appeals. It was whether the banks of the state had an irrevocable contract with the state that exempted them from the payment of county and municipal taxes.

The court stood four for the irrevocable contract and three against. Judge Paynter wrote the dissenting opinion that they did not have an irrevocable contract and were subject to the same tax as any other tax-payers were compelled to pay. In 15 months afterward his dissenting opinion was made the opinion of the court which overruled the previous opinion. The supreme

court of the United States sustained Judge Paynter's view of the law.

Judge Paynter was elected to the Senate for the term commencing March 4, 1907, and was formally sworn in in December of that year, when he actively entered upon the discharge of his duties in the upper branch of Congress. At the very beginning he took part in the discussion upon the financial bill. During his first session he vigorously urged the passage of a law to relieve growers from the tax on leaf tobacco sold by hand. The Senate had steadily refused to give them any relief.

The next year during the extra session called by President Taft for the special purposes of revising the tariff the matter was again under discussion in the Senate, and Senator Paynter made a strong and what proved later to be a convincing argument for the proposition. He also urged before the Democratic caucus that this relief should be given the growers of tobacco in Kentucky and in the other states in which the staple is produced. His fellow Democrats assured him they would be solid for the proposition and they were, and with some Republican support it went through, and the Republic leaders had to submit. The relief finally came, though not as full as had been hoped for.

Senator Paynter participated from time to time in the tariff debate during the special session, and throughout the long contention never cast a vote for an increase of duty upon any article, but voted always to levy and collect duties upon a revenue basis.

## Assigned to Judiciary Committee.

It is considered a high compliment for any one to be assigned to membership on the Judiciary Committee of the Senate. Most of the lawyers in the Senate hope sooner or later to get a place on this committee. Many of the newer Senators have aspirations in this direction, but they are not selected even when their chances appear to be good. After serving only two sessions the Democratic Steering Committee and the Republican Committee on Committees unanimously decided to increase the membership of the Judiciary Committee in order to give Senator Paynter a place on it. It was as unusual a compliment as it was a flattering one that the Kentucky Senator had extended to him.

Among many other pieces of legislation Senator Paynter has been prominently connected with the following as may be cited as evidences of his activity:

He aided in passing a child's labor bill for the District of Columbia, intended to be something of a model for the rest of the country.

## Work Against Loan Sharks.

He assisted in passing a bill to protect the people of the city of Washington against the loan sharks of the District of Columbia, and secured amendments to prevent future extortion. Under the provisions of the measure passed by the Senate the rate of interest was heavily reduced, penalties were prescribed and the making of contracts was regulated.

## Employers' Liability Act.

He secured the adoption of an amendment to the employers' liability bill, conferring concurrent jurisdiction upon state and federal courts. An important provision of the bill is that when an action is brought in a state court it can not be removed to a federal court, but must be tried there.

Concerning this amendment Senator Hale said:

"This is a noteworthy advance in the direction of maintaining the constantly dwindling force of state jurisdiction and state control. So, for one, I believe in every form of litigation that will preserve the right of the states, the right, as I believe, as originally contemplated by the framers of the constitution. I congratulate the senate upon having taken the first step in the right direction."

## Spoke on Railroad Bill.

Senator Paynter participated in the debate during the present session on the railroad rate bill, and spoke several times on various important questions arising while it was under consideration.

He offered another amendment that

provided that when a rate went into effect and the question of the right of the railroad to increase the rate was in litigation the railroad company, until it was settled, should give the shipper a receipt showing the amount paid under the increased rate, and what it would have been under the old rate; and if it was finally found that the old rate should stand then the carrier should pay to the party paying the freight rate the difference between the old and the increased rate, and it should be paid at the office of the carrier where it was paid, upon presentation of the receipt or bill of lading, thus avoiding litigation or adjustment of accounts.

This clause in the railroad bill, and which Senator Paynter offered, was passed unanimously by the senate.

## On the Bribery Committee.

Senator Paynter is a minority member of the special committee appointed by the Senate to investigate the bribery charges in connection with the election of Senator William Lorimer, of Illinois. The investigation will be commenced at Chicago September 10 next, and is looked forward to with keen interest in political circles all over the country, owing to the startling and in some respects sensational allegations that have been made. Two other Democrats will serve on this committee with the Kentucky Senator. They are Senators Frazier, of Tennessee, and Johnston, of Alabama.

With some people it is up to be all right to eat almost any kind of adulterated food so long as it hasn't been publicly exposed. What they can't stand is to have the neighbors know what they are getting to eat is under suspicion.
